

# Statue of Liberty Fallen!

Maurice Sklar Prophecy.

## These things are about to take place.

March 14, 2014

**The Angle of the Lord over the statue of liberty**, I saw a huge Angle suspended on the air over New York Harbor. He was so large he covered the night sky, his body was clad in golden Armour as if he was going to war, his face and entire being was so bright that I couldn't gaze at him for long. White beam of light seems to radiate out in from him in all direction. He was standing over the statue of liberty. It was night but I couldn't see the light around New York city. He blazes brightly with the white light. He reached for his belt that is covered with a red sash around his mid section and drew out his sword. It was so massive. It blazes with light and fire all around it. It look at least a 100feet long. I never felt such fear when I saw an Angle before. I know this warrior spirit has an authority from the very thrown of God. He has a grim expression as he held this mighty sword over his head with both hands. I can see he is poised to hit the statue of liberty and cleave it into two. I tumbled and tried to hide but the angle was looking distractedly at me and I knew there was nowhere to go where he couldn't see me. Then he spoke. His voice was like thunder and echoed throughout the whole harbor. He said:-

How long do you refuse to humble yourself oh **America? You have been weighed in the balances of God found wanting.** Your begging was great and noble but your ending shall be disgrace and destruction says the Lord of the heavens armies, the Lord of hosts. **Time is running out.** The bowls of my wrath are full of my fury and judgment. They shall be poured up on you. You shall drink them down to the drape every drop. I have came to you day and night pleading with you to return to me for **over one hundred years.** I am merciful and long suffering. It brings me no joy to judge you but you have hardened your hearts. **Scoffed to my warnings through my prophets and holly servants.** I brought you from nothing and exalted you ho America higher than any other nation but now:-

1. You have **fallen lower than Sodom**
  2. You have **sinned greater than Egypt**
  3. You have **became prouder than Babylon and Persia**
  4. You have **became more selfish than Rome**
  5. You have exalted **yourself in your own wisdom higher than Greece**
  6. You have **more idols in higher places of idolatry and luxury than any gentile kingdom in history**
  7. Your beginning was pure and great, but now **the stings of your filth fills my nostril.**
1. **I shall cut you in pieces** and **you shall rip the harvests of wrath you have sown**
  2. **You shall no longer be the queen of nations**
  3. Now, **you shall bare your shame and become the lowest of the heathen nations.**
  4. Now, as agag, **you shall be hacked in pieces.**

**Oh Earth! Earth!, Earth!, hear yee the word of the Lord!**

Then to my horror, the massive sword came smashing down on lady liberty. When it hit the top of her head, there was a lightening flash of light the sword split her into two right in the middle then the sword came again and again and again against her divided her in pieces. As the award was finished each strike fire bursts forth, I heard terrible explosions, The vision of the statue ended in an earthquake, was hacked into pieces and sank into the harbor. I was wiping and crying to God for mercy. Never have I seen this side of God before. I had only really known the love and goodness of him. Never had I seen

the wrath of the Almighty.

Then, as I was watching from a zoomed in close up, the dream shifted, then I started to shift in outwards from New York harbor and started traveling in the air over America.

What I saw horror beyond anything I have ever seen. I saw:-

1. **The US seem crack into two with giant Earthquake right down the middle**
2. **The Southeastern US covered with giant wave of water from the ocean.**
3. **A massive Earthquake that seem to crack off the cost of California.** It reminded me of a salt in cracker that just crack in two.
4. **The great cities of the west cost fall into the ocean all the way from Mexico to Alaska and**
5. **A giant wave flooded inside and much of the West cost was not there. It has disappear to the Pacific ocean**
6. **Three rocket missiles** that took over to the air. Two came out of the ocean water and one came from the land and traveled great distance, All of them **blow up in the air** one after another, one two and three in the upper atmosphere within five minutes of watch other and there outer in space. **They were terrible nuclear bombs and the last one is the biggest and it created a huge mushroom cloud over the med west part of America, then the ground shook and everything went black.**
7. **There were not any electric light coming from any homes.** And candles started to be lite and fire and little light started to be seen.
8. **There were other nuclear explosions and people perished throughout the nation.** There were twisted metal and charred debris in cities that were tall and majestic
9. **There were wide spread looting** and gangs were everywhere with guns stealing whatever food or supplies they can find.
10. The I saw riot police by thousands going into communities and even cities forced the people out of their homes and brought them into concentration camps. Some but not all are police armies wore light blue helmets on.
11. **Hundred of thousands of people were arrested** in this way. **Many couldn't cooperate just shot and left in their homes.**
12. There were millions of people who escaped the first wave of this terrible disasters.
13. **Revival broke out and great evangelists prophets and apostles rose up and began to preach outdoors and many were saved and born again.**
14. Miracles and provision and multiplication of food and water and astonishing healing occurred.
15. Millions of people cried out to God and He heard and answered.
16. I know **this is not only happening to America, the great tribulation was upon them. In all over the world this calamities were taking place.**
17. I saw **multitude of saints** refusing to renounce Jesus as Lord. They were starving many of them but stile **refuse to take the stamp of their body so that they can eat and live.**
18. There was what looks like kiosk that were in every little town. They advertised food and water. **Only few went inside and took the electronic mark.**
19. **Some went in and bowed down to a hologram movie images of the Antichrist.** There were awful but very realistic and **branded in their hands and foreheads with an electronic tattoo like stamp.** When they came out if they came out they have a zombie like look. **Their minds and souls were gone.** It looks lie they have had a spiritual lobotomy.
20. And these joined the army of this police unit and were given weapon after they were fade, drank and rested in the kiosk. **They were like robots doing the Antichrists bidding.** From then on, I knew they were lost forever. But quite a few didn't make it out. They were tortured mentally and physically inside that kiosk thing but if they refuse **the mark of the beast**, there was laser that shot through their brain and heart and sliced their heads off. There, they were immediately

incinerated, nothing but ashes remain. This was the most horrifying of all. It makes the Nazi death camp look like a picnic

21. **Millions of people were executed this way via computer systems automatically with such precision and efficiency** that marvel such efficiency was possible and can take place in such larger scale. The technology was more advanced than I had ever seen.

And I looked back to the Angel which said:-

**-Warn everyone, flee from the wrath to come.**

**-Repent and return to Jesus still while you can**

**-Pray so that you may escape these things which are shortly to happen** and stay in the presence of the Lord.

**-These things are about to take place.**

**-Return to God and cry out for mercy and come to the arc of salvation before the doors of Grace closes and too late.**
