2 Corinthians 13:1

This will be my third visit to you. **“Every matter must be established by the testimony of two or three witnesses.”**

-----//////////////-----

This vision from the Lord was posted here one year earlier on August 2, 2019.

(<https://444prophecynews.com/the-power-of-fire-and-water-tsunami-mckana/>). I saw today the prophetic word from 3M PROPHECIES which similar to what I saw. Seeing the closeness of the time and realizing the involvement of **the life of many millions**, I thought it will be good to post it again to make sure the warning is out for all and clear our doubts about few of the questions raised when the vision was posted. Now we have more than three witnesses.

New York city in flames from Nuclear attack!

(Vision of October 24, 2016 9:52 AM)

Last night I didn't sleep since 3:00AM. I had a rough morning, sick until I hate everything (sorry for the word). I sat, saw the news and closed my eyes. The condition and my situation doesn't permit me to think about anything but to have a small rest. I was swiftly drifting, gone for few minutes. I didn't ask for it nor thought about it. What I saw shook me to the bones.

I saw New York city in flames, burning from nuclear attack. It is destroyed. When I see that, I said to myself, *all what they are talking about came to be true*. It was so real, in my face, as if I was there close to the action, I was shocked. It was an instant but **very, very real**. At the very moment, I saw Trump in a flash flew on the air right by the flaming city. I saw him speed passed behind the flame to the right, on the air. I don't know what it means but that is what I saw. I saw what many have seen, The timing is what matters. This thing looks so close, God knows the time.

Remember where judgement starts.

Repent! Repent! Repent!

We are at the End.
