

## Mega Volcanic Eruptions.

McKana, November 24, 2020

### Matthew 24:6-8 (KJV)

6 And ye shall hear of wars and rumours of wars: see that ye be not troubled: for all these things must come to pass, but the end is not yet.

7 For nation shall rise against nation, and kingdom against kingdom: and there shall be **famines, and pestilences, and earthquakes, in divers places.**

8 All these are the beginning of sorrows.

### Mega Volcanic Eruption.

(March 20, 2013)

I see a huge fire erupting like an umbrella from a distance, from 100s of miles. First, I thought it is a nuclear mushroom. It looks like a nuclear explosion. Then, I knew it is a volcanic eruption. This huge volcanic eruption is taking place on the North-West, in the mountainous regions of North America. I am seeing the full scope, circular, from very far, the vision very clear that I see the details, the underbelly of this flame of fire, magma, very intense red in color shooting up in the air spreading like an umbrella or a mushroom.

In 2013, the year I saw this eruption, there were no much volcanic activity, frequent and big as today which I can relate to. In few years, there were many big volcanic eruptions which look exactly as I saw in this vision. One which look like it is posted above.

What volcano is this? What is there in the North-West region of the continent of the America. Yellow stone? Is there any other volcanic activity in the region? I was not given a name but it looks like Yellow stone. I have sketched what I saw on time, that is how I traced back the date.

### The Power of God and the Violent Volcanic Eruption.

(April 12, 2018 5:30PM)

To compensate for what I lost last night, I tried to take a small nap at ~5PM. I struggled to sleep but ended up even in the worst situation. In the one hour, I slept for not more than five minutes. In that five minutes, right in front of me I saw something strange.

I am facing west, there is a high mountain, looks familiar, a volcanic mountain. There is a violent eruption of the volcano, shooting high up to the sky and flowing on the ground like a river. Amazingly, it formed what looks like a human figure flowing on the ground. I saw it and thought, there is nothing God can't do and tried to shout "The power of God!!." I tried to speak it loud, words can't come out of my mouth as I wanted. I rebuked the erupting volcano. When I say **"The power of God"** a power surge, electric, heat and pressure, heavy weight went through my arms, towards my body. My body is stiff and my arms are stretching out with my hands forming a strong fist. I am feeling the power and the surge of heaviness and energy in my body. Immediately, the volcano went down and got silenced. The volcanic eruption stopped and the lava shooting went down and subsided. There was calmness and silence and peace. I woke up and I am OK, The pain and sickness, the suppression is gone.

There is nothing God can't do. The power of God is mighty, can move the mountains and stops the sun from moving, There is nothing impossible for Almighty God, the creator of what is created.

To my surprise, It is shortly after that the Volcano in Hawaii erupted and the lava flow just like I saw in the vision forming what looks like the figure of a human body.

This came to pass and what follows is what is mentioned above, the North-West mega volcanic eruption of North America.

(I have sketched what I saw on time, that is how I traced back the date)
