

Dear Brothers and Sisters:

On December 2019 I felt a sharp pain in the left side of my chest. My daughter took me to a renowned hospital here in Maryland USA, where she lives. We arrived to the emergency room around 11:00 o'clock in the morning. We had to wait there almost one hour to be called. When I was called, I went through the routine procedures, a doctor checked me and I was sent to the emergency room again to wait in order to be admitted. Time passed and I was not called. I checked with the receptionist to see if something was wrong, and again he told me that I had to wait since there were other people that had priority. I am a senior of almost seventy years. I began to feel uncomfortable and the Holy Spirit put restlessness in my heart about something unknown to me.

Around 7:00 o'clock p.m., I almost lost my cool and went again to the receptionist. I asked to speak to the head nurse. They let me in and I asked her to remove the IV device since I was going home. She refused and told me to wait. One hour later I went again, and she told me that she needed a doctor's authorization. I had to wait almost three additional hours. Again I talked to the receptionist and he didn't allow me to enter to the nurse station, but I did it by myself, and with the authority of Jesus I told to a nurse: "If you don't remove this thing I will go home and do it by myself and you will be responsible for the consequences." The nurse explained to a doctor and she got permission to remove it. I felt something strange in my spirit. The Holy Spirit was telling me to leave that place as soon as possible.

One month later I had a dream. In my dream I was taken to the central mountain range in the island of Puerto Rico. Not many people live in those mountains. I was walking through a lonely trail when at a distance I observe a white tent. I walked to that place and noticed something like a laboratory. I was amazed to see a laboratory in that lonely place. There were some doctors and nurses and they were doing experiments with people. I don't know why I perceived they were Nazis. I was very scared. When I entered into that laboratory a tall doctor with silver hair and blue eyes told me: "You went to [he mentioned the hospital] and we didn't finish the work with you because you left. You must go there because the work with you must be finished."

I have had many dreams with underground laboratories where doctors and nurses perform experiments with people.

In another dream that I had I was taken to the military base in Salinas, Puerto Rico where I saw military men with reptilian eyes.

*Ephesians 6:<sup>10</sup> Finally, my brethren, be strong in the Lord, and in the power of his might. <sup>11</sup> Put on the whole armour of God, that ye may be able to stand against the wiles of the devil. <sup>12</sup> For we wrestle not against flesh and blood, but against principalities, against powers, against the*
