

"Destroy this when We come back!"

McKana, December 15, 2020

Matthew 19:14 (KJV)

But Jesus said, Suffer little children, and forbid them not, to come unto me: for of such is the kingdom of heaven.

-----//////////////-----

We know the Lord dearly loves the unborn innocent and the clean hearted little children. Whosoever touches them will receive sever punishment. Time to Repent, the Lord is forgiving. It was the same place I saw the Halloween party celebration where the **"Fire of Hell"** came out like lava shooting up. Hell opened up, OCTOBER 7, 2019, MCKANA (<https://444prophecynews.com/hell-opened-up-mckana/>)

Just in front of the house where the Halloween party is celebrated, across the street, there is a clinic. By now you have figured out what clinic it is.

I seen the clinic, every time I pass by the street, going out for a walk or shopping. I see people coming in and out. More that what I see of this pance with my carnal eyes, I see more in the spirit realm. During my stay in that middle class neighborhood (I moved out of that pace almost three years now), I have received many messages from the Lord. The "Halloween Hell" is one of them. Most of all, I was severely traumatized with what is going on in that clinic. It is that center we know, the most sin of the Nation is taking place. **I can describe what I see in that center in detail** but better leave it as it is. I have experienced many spiritual attacks in my stay in this neighborhood. No wonder Halloween is celebrated across the street-**Celebration of Sacrifice**.

During that time, I see, feel and understand, spiritually, day time, the Lord coming to visit the earth, sometimes in few days interval and sometimes more frequently. I see spiritually, His coming and going regularly. Just before the Lord passes by, I feel/undetsnad, my spirit is awakened and I go out and fix my eyes on to the open sky, waiting for Him and what He is going to tell me. Sometimes He gives me a word, to let me know that He noticed me, that He is near but always observing and watching the people, their being and activity.

I know the Lord watches and watches all, day and night, hears all and knows all. One day in His regular visit, I heard the Lord say **"Destroy this when we come back."** to the ecenter. Judgement is passed.

Even though we don't know who is to be spared in the coming heavy calamities, Judgment is passed on this center where the most evil of this Nation is taking place every day. Those who touch His little ones will not be spared.

The Lord Is Just In His Judgement!

Justice will Be payed in Kind!

Repeny! Repent! Repent! The Lord will Forgive!
