

## Early Warnings and Signs for California and the West coast.

McKana, *updated* May 13, 2023

This is a message posted on March 7, 2021. Many have seen it. Since the lives of many millions are at stake, I am pressed to post it again with this small additional note. The alarm is on, **Popocatepetl volcano has started erupting**, sometimes so violently, releasing intermittent lava flows, almost once a day for the last three weeks since April 21, 2023. We strongly recommend for all to see the short video clips posted with the message. Some video clips are added after it is posted. It is important to see in what dangerous stage the volcano is. <https://444prophecynews.com/popocatepetl-volcano-mckana/> See the last message below and make a note of the signs when to run before the big one comes to the west coast. Repeating warnings are the best way to send the message and that is what we are doing. There are as well new comers to the messages posted earlier.

There is time to listen, there is time to prepare and as the situations demand, there is time to run. This is the time to get everything in order for any eventuality. For the wise who are watching events globally, there is a lot happening. The intensity and the frequency of earthquakes has increased. Just last week, we have seen magnitudes 7.3s and 8.1 and many 5.0s and 5.5s and 6s. Globally, there are over 49 active volcanoes erupting right now. Last and this week, the volcanoes of Mount Etna of Italy, Pacaya of Guatemala, Mount Sinabung of Indonesia, Sakurajima Volcano in Japan and more alarmingly **Mt. Popocatepetl of Mexico have erupted**. Flood and devastation is everywhere, even at this very moment, many calamities are happening. The signs are here, the alarm is on, we are in it and we don't know it. It will be unwise to expect these news from the public media. We hear from the Lord and watch the events unfold.

Some of the early warning signs from many old and new prophetic words given below have been posted much earlier. This last moment alarm includes some of the most important signs which will help us watch and get ready for when it comes it is going to pour like rain. God be with you all. Get ready! The message is not to throw fear and terror but to warn and alarm. The time is in the hand of the Lord. Pray, Pray, Pray! Repent, Repent, Repent!

### Early warnings and signs!!!

Before the great West coast/California quake:-

1. There would be a mass **migration out of Mexico and other Central American countries**. This has started but it will finally reach millions streaming north. **(This has come to pass, it is happening now, over 31,000 migrants waiting in the border with Mexico in the south)**
2. **The crust** of the planet along the western margin of Central and North America **will begin to break up** before this quake, because of early effects of the incoming **Destroyer (Wormwood/Nibiru)**.
3. **The 4.8 magnitude earthquake outside of Las Vegas**, where the water of **Lake Mead** is draining into the earth, is a **clear indication that this has started**.
4. **A massive earthquake is coming to Mexico City**. During this quake large areas of **the world's biggest city will be swallowed up and millions will die**.
5. **The volcanoes will erupt**. There will be a massive eruption of **Mt. Popocatepetl**. When the smoke clears **Mexico City will be no more**. **Be warned that when this earthquake happens it is the final warning sign for the coming Great West Coast Earthquake.** **(This happening right now)**
6. The Northwest will be first. **The 9.1 quake will shake Washington State and Oregon** with fierceness. **Within 24 hours follows the big one**.
7. At the end

- The birds will disappear.
- A small Earthquake, 30 minutes before the big one.
- The smell of Sulphur from the ground.
- A tidal wave from the Pacific.

8. And **the great strong shake of 12.2 quake will break California apart:-**

**-1,000 miles from South to the North**

**-200 miles deep into the inland**

**-400 miles??? deep everything from the San Andrea's Fault westward would fall into the ocean**
