## Introduction

**A Call to pray as you may never have never prayed before. The Bible says in James 5:16, "The effectual fervent prayer of a righteous man availeth much."**

I don't believe we have been as close to having war on American soil since the Civil War. The prophets I trust, not the pillow prophets are warning of war and many forms of disaster. The world is being warned of the soon coming judgment of God. America could be at the top of the list for God's judgment.

There are some things that cannot be stopped by prayer. We cannot stop or postpone the Coming of the Lord. God has had the time of the last days events written in His calendar. God's calendar has many signs written in the sun, the moon and the stars. We have recently seen the recent warnings of these signs in heavens. We cannot pray and expect God to reset his calendar in the heavens.

So, we need to understand how we should be praying. If we cannot stop or postpone the coming of the Lord or the coming of a Global One World Government, that includes the coming of the antichrist, then how do we pray?

First are you obeying God in all things? If the rapture was to happen tonight are your robes without spot or wrinkle? The Bible clearly says that the Lord is coming for a Bride without spot or wrinkle. Are you qualified to be the First fruits of the Bride or Christ? Living a lukewarm life will disqualify you. **If you are living a lukewarm life then do not hesitate to repent and ask for God's mercy.**

In my last newsletter dated 4-1-2021 I had a study called, "Without spot or wrinkle". It teaches how we can be assured that we are ready for the Lord's Coming. The Bible says that our righteousness is as filthy rags and that no one is righteous in this life. What I show is how with daily fellowship and the daily confession of our faults and sins, we can maintain a right relationship with God. Keeping our robes clean with the cleansing Blood of Jesus Christ. My recent study called, "Without Spot or Wrinkle is worthy of a second read.

If we cannot stop the coming judgment of God and the coming judgments that will include war and horrible events of nature, then how should we pray?

As I mentioned above about keeping our relationship with God current on a daily basis. We need to pray for the lost all time and double up on our prayers as coming events unfold. We need to pray for the protection and safety of our family and friends during the days ahead. We need to ask God if we are in a safe place and remember the safest place to be is in the center of God's will.

It blows me away that with all the warnings, including my recent dream of a nuke hitting America, with that dream showing it was too late to prepare. You must ask yourself, "Do I have enough food and water and needed supplies to take care of my family, friends and neighbors?" If you really want to win your lost family, friends and neighbors then you need to be prepared to feed them.

### **Worse than the Cuban Missile Crisis**

You will need to read all the news articles below to see why I see this. Part of why I see this crisis not ending well for America is because of the poor leadership we currently have that will or will not stand up to our adversaries.

As a kid growing up in the 60's I remember the Cuban Missile Crisis. I remember hearing of people stockpiling rice and other food items. The reason we did not see this end in nuclear war was because we had strong leadership in the Kennedy brothers. These leaders of the 60's were patriotic and loved our country. I believe leaders in Washington today would cut a deal to sell us out, if it would mean they could save their butts by doing so.

We may lose no matter how we react to this threat. When you read the news below you may understand why I see this as a no-win situation. If Russia pushes President Biden into backing down and pulling out our support of the Ukraine it will show great weakness and a lack of resolve to honor our commitment to our allies.

President Biden just back down when Russia warned President Biden there would be grave consequences of we put our military ships in the Black Sea. Biden backed down showing weakness. President Biden a few days ago said the USA will not back down in our support of the Ukraine and Russia two days ago said we have six days to pull out our support for Ukraine and if we don't then Russia will attack and drive us out.

If America backs down then this will send a message of weakness to China over Taiwan, a message to North Korea over South Korea and a message to the enemies of Israel to destroy the Apple of God's Eye.

Again. this is a no-win situation, if we back down it can make the problem go away for a short time, if we don't back down, we can see the beginning of WW Three next week, with the likely escalation to a full blown nuclear war.

The news media is not covering this situation. During the Cuban Missile Crisis knew what was going on they were able to prepare. When this news really hits home the warnings of war will empty the store shelves in hours.

### **America's assured Destruction**

I have taught for a long time that America fits the description of Mystery Babylon. The Bible says it will be destroyed for its sins. I have also believed that America positioning it self as the world cop has given America many enemies. America as the guardian of Israel has stood in the way of Bible Prophecy.

Under the Trump Presidency, America was standing with Israel like no other President in History. It is already evident under the Biden administration that we are back to the game plan of former President Obama, "A two state solution" President Biden has already said we will give the Palestinian Authority 150 million dollars. Remember during the Obama years this money was used to pay bounties for the killing of Israelis.

I believe elites running our country could desire to lead us into war for the purpose of seeing the destruction of America. This would take America out as the protector of Israel and the world cop that is holding back the plans of Russia, China, North Korea and the enemies of Israel in the Middle East.

### **Russia has already prepared for war.**

Russia has been preparing for a nuclear war with America for a long time. They have been building underground shelters large enough to shelter over half of the population of Moscow alone. They have taken similar steps to protect its citizens in other cities as well. Has America taken steps to protect its citizens in the event of a nuclear attack? No, they have built shelters to protect the politicians and lawyers. Many politicians were lawyers.

Russia has passed America in military technology. This includes stealth subs armed with nukes. A few weeks ago, they did an exercise in the Arctic showing they could launch nuclear subs through the ice and launch nuclear missiles and hit NY city in 25 minutes with their hypersonic missiles. America would like to think we could shoot these hypersonic missiles down but we haven't had great success in taking down non hypersonic missiles down.

A little-known fact is the number of interceptor missiles in our arsenal is not large enough to protect us from a full-scale attack. The missiles could be coming from Russia, China and North Korea all at the same time.

### **China has declared they are our equal**

China just recently declared that they are our equal. This would be in reference to their strong economy and their military might. When you combine the forces of Russia, China and North Korea and even throw in Iran. A world war would not go well for America.

I had a dream a few weeks ago. I have no doubt it was a God Dream. I saw a nuclear missile armed in a building of sorts and then heard the missile coming and heard and felt the detonation. It would only take one nuclear bomb hitting just one city in America and our economy would be crushed with one blow.

Americans have been so pampered that it would not take much to cause such panic and chaos in our cities that our military from around the world would have to come home to help restore order

### **Hit our grid and America is down for the count.**

Most Americans don't realize how fragile our electric grid is. I have studied the North America Grid for years. We have heard much talk about an EMP attack taking out our grid but it could be done in other ways as well. If a number of substations were hit from the ground the destruction of the key transformers would take years to replace.

Again, China has been preparing for war with America by undercutting the cost of electric grid transformers. China has been selling us Transformers at such a low price that there are hardly any more being made in America and a few are still made in Mexico.

If we go to war with China, do you think they will sell transformers to us? Because substation transformers are custom made for each individual substation time to remake them is one to two years.

What a shame that our politicians have sold our jobs and manufacturing to China to line their own pockets and take the jobs and money out of the pockets of Americans. China is currently building aircraft carriers as big and powerful as anything America has. Where do you think they raised all the money to build such an arsenal? By your buying all the China made goods in Walmart and other stores across America. If we go to war our Walmart's and other stores will be close to empty.

Again, think about this, the grid goes down, cash registers don't work. Computers don't work. If you have crypto currency, will you be able to find and retrieve it? Most of the world will not come under the scenario I am describing but I have no doubt that America will be toast.

God showed David Wilkerson that when America is weak, our enemies will invade us. It was seven years ago this week that God led me to find the three warning signs in David Wilkerson's book, "Set the Trumpet to their mouth" It was on the night of the first blood moon, April 14<sup>th</sup> 2014. When I found this book in my pocket on that night, a page was earmarked with a warning to America. Three warning signs. A coming economic collapse, destruction and when we are weak our enemies will invade us.

**Many will not receive the words of warning in this newsletter. I only ask that you read it all and pray and ask God for rejection or confirmation. If I did not write out this newsletter the Bible says that your blood would be on my head. Because I have obeyed and if you do not heed these warnings then the blood will be on your own head.**

**Read the News headlines below of coming war and really pray about this.**

## **31 reasons why I won't take the vaccine**

**I found this article on the internet.**

**1. It's not a vaccine.** A vaccine by definition provides immunity to a disease. This does not provide immunity to anything. In a best-case scenario, it merely reduces the chance of getting a severe case of a virus if one catches it. Hence, it is a medical treatment, not a vaccine. I do not want to take a medical treatment for an illness I do not have.

**2. The drug companies, politicians, medical establishment, and media have joined forces to universally refer to this as a vaccine when it is not one, with the intention of manipulating people into feeling safer about undergoing a medical treatment.** Because they are being deceitful, I do not trust them, and want nothing to do with their medical treatment.

**3. The presumed benefits of this medical treatment are minimal and would not last long in any case.** The establishment acknowledges this, and is already talking about additional shots and ever-increasing numbers of new "vaccines" that would be required on a regular basis. I refuse to turn myself into a chronic patient who receives

injections of new pharmaceutical products on a regular basis simply to reduce my chances of getting a severe case of a virus that these injections do not even prevent.

**4. I can reduce my chances of getting a severe case of a virus by strengthening my immune system naturally.** In the event I catch a virus, there are vitamins and well-established drugs that have had wonderful results in warding off the illness, without the risks and unknowns of this medical treatment.

**5. The establishment insists that this medical treatment is safe.** They cannot possibly know this because the long-term effects are entirely unknown, and will not be known for many years. They may speculate that it is safe, but it is disingenuous for them to make such a claim that cannot possibly be known. Because they are being disingenuous, I do not trust them, and I want no part of their treatment.

**6. The drug companies have zero liability if anything goes wrong, and cannot be sued.** Same for the politicians who are pushing this treatment. I will not inject myself with a new, experimental medical device when the people behind it accept no liability or responsibility if something goes wrong. I will not risk my health and my life when they refuse to risk anything.

**7. Israel's Prime Minister has openly admitted that the Israeli people are the world's laboratory for this experimental treatment.** I am not interested in being a guinea pig or donating my body to science.

**8. Israel agreed to share medical data of its citizens with a foreign drug company as a fundamental part of their agreement to receive this treatment.** I never consented for my personal medical data to be shared with any such entity, nor was I even asked. I will not contribute to this sleazy enterprise.

**9. The executives and board members at Pfizer are on record that they have not taken their own treatment, despite all the fanfare and assurances.** They are claiming that they would consider it unfair to "cut the line". This is a preposterous excuse, and it takes an unbelievable amount ofchutzpah to even say such a thing. Such a "line" is a figment of their own imagination; if they hogged a couple of injections for themselves no one would cry foul. In addition, billionaires with private jets and private islands are not known for waiting in line until hundreds of millions of peasants all over the world go first to receive anything these billionaires want for themselves.

**10. The establishment media have accepted this preposterous excuse without question or concern.** Moreover, they laud Pfizer's executives for their supposed self-sacrifice in not taking their own experimental treatment until we go first. Since they consider us such fools, I do not trust them, and do not want their new treatment. They can have my place in line. I'll go to the very back of the line.

**11. Three facts that must be put together:**

- Bill Gates is touting these vaccines as essential to the survival of the human race.
- Bill Gates believes the world has too many people and needs to be "depopulated".

- Bill Gates, perhaps the richest man in the world, has also not been injected. No rush.

Uh, no. I'll pass on any medical treatments he wants me to take.

**12. The establishment has been entirely one-sided in celebrating this treatment.** The politicians and media are urging people to take it as both a moral and civic duty. The benefits of the treatment are being greatly exaggerated, the risks are being ignored, and the unknowns are being brushed aside. Because they are being deceitful and manipulative, I will not gamble my personal wellbeing on their integrity.

**13. There is an intense propaganda campaign for people to take this treatment.** Politicians and celebrities are taking selfies of themselves getting injected (perhaps in some cases pretending to get injected), the media is hyping this as the coolest, smartest, most happy and fun thing to do. It is the most widespread marketing campaign in history. This is not at all appropriate for any medical treatment, let alone a brand new one, and it makes me recoil.

**14. The masses are following in tow, posting pictures of themselves getting injected with a drug, feeding the mass peer pressure to do the same.** There is something very alarming and sick about this, and I want no part of it. I never took drugs just because "everyone's doing it" and it's cool. I'm certainly not going to start now.

**15. Those who raise concerns about this medical treatment are being bullied, slandered, mocked, censored, ostracized, threatened, and fired from their jobs.** This includes medical professionals who have science-based concerns about the drug and caregivers who have witnessed people under their charge suffering horrible reactions and death shortly after being injected. When the establishment is purging good people who risk everything simply to raise concerns about a new medical treatment — even if they don't outright oppose it — I will trust these brave people over the establishment every time. I cannot think of a single similar case in history when truth and morality turned out to be on the side of the establishment.

**16. This is the greatest medical experiment in the history of the human race.**

**17. It is purposely not being portrayed as the greatest medical experiment in the history of the human race, and the fact that it is a medical experiment at all is being severely downplayed.**

**18. Were they up front with the masses, very few would agree to participate in such an experiment.** Manipulating the masses to participate in a medical experiment under false pretenses violates the foundations of medical ethics and democratic law. I will not allow unethical people who engage in such conduct to inject me with anything.

**19. The medical establishment is not informing people about any of this.** They have become marketing agents for an experimental drug, serving huge companies and politicians who have made deals with them. This is a direct conflict with their mandate to concern themselves exclusively with the wellbeing of the people under their care. Since the medical establishment has become corrupted, and has become nothing more than a

corporate and political tool, I do not trust the experimental drug they want so badly to inject me with.

**20. We are being pressured in various ways to get injected, which violates medical ethics and the foundations of democratic society.** The best way to get me not to do something is to pressure me to do it.

**21. The government has sealed their protocol related to the virus and treatments for THIRTY YEARS.** This is information that the public has a right to know, and the government has a responsibility to share. What are they covering up? Do they really expect me to believe that everything is kosher about all this, and that they are concerned first and foremost with my health? The last time they did this was with the Yemenite Children Affair. If you're not familiar with it, look it up. Now they're pulling the same shtick. They didn't fool me the first time, and they're definitely not fooling me now.

**22. The government can share our personal medical data with foreign corporations, but they won't share their own protocol on the matter with us?** I'm out.

**23. The establishment has recruited doctors, rabbis, the media, and the masses to harangue people who don't want to get injected with a new drug.** We are being called the worst sort of names. We are being told that we believe in crazy conspiracies, that we are against science, that we are selfish, that we are murderers, that we don't care about the elderly, that it's our fault that the government continues to impose draconian restrictions on the public. It's all because we don't want to get injected with an experimental treatment, no questions asked. We are even being told that we have a religious obligation to do this, and that we are grave sinners if we do not. They say that if we do not agree to get injected, we should be forced to stay inside our homes forever and be ostracized from public life.

This is horrific, disgusting, a perversion of common sense, morality, and the Torah. It makes me recoil, and only further cements my distrust of these people and my opposition to taking their experimental drug. How dare they?

**24. I know of many people who got injected, but none of them studied the science in depth, carefully weighed the potential benefits against the risks, compared this option to other alternatives, was truly informed, and decided this medical treatment was the best option for them.** On the contrary, they got injected because of the hype, the propaganda, the pressure, the fear, blind trust in what "the majority of experts" supposedly believed (assuming THEY all studied everything in depth and were completely objective, which is highly dubious), blind trust in what certain influential rabbis urged them to do (ditto the above), or hysterical fear that the only option was getting injected or getting seriously ill from the virus. When I see mass hysteria and cult-like behavior surrounding a medical treatment, I will be extremely suspicious and avoid it.

**25. The drug companies have a long and glorious history of causing mass carnage with wonder drugs they thrust on unsuspecting populations, even after serious problems had already become known.** Instead of pressing the pause button and halting the marketing of these drugs until these issues could be properly

investigated, the drug companies did everything in their power to suppress the information and keep pushing their products. When companies and people have demonstrated such gross lack of concern for human life, I will not trust them when they hype a new wonder drug. This isn't our first rodeo.

**26. Indeed, the horror stories are already coming in at warp speed, but the politicians are not the least bit concerned, the medical establishment is brushing them aside as unrelated or negligible, the media is ignoring it, the drug companies are steaming ahead at full speed, and those who raise a red flag continue to be bullied, censored, and punished.** Clearly my life and my wellbeing are not their primary concern. I will not be their next guinea pig in their laboratory. I will not risk being the next "coincidence".

**27. Although many people have died shortly after getting injected — including perfectly healthy young people — we are not allowed to imply that the injection had anything to do with it.** Somehow this is anti-science and will cause more people to die. I believe that denying any possible link, abusing people who speculate that there might be a link, and demonstrating not the slightest curiosity to even explore if there might be a link is what is anti-science and could very well cause more people to die. These same people believe I am obligated to get injected as well. No freaking thanks.

**28. I am repulsed by the religious, cult-like worship of a pharmaceutical product, and will not participate in this ritual.**

**29. My "healthcare" provider keeps badgering me to get injected, yet they have provided me no information on this treatment or any possible alternatives.** Everything I know I learned from others outside the establishment. Informed consent has become conformed consent. I decline.

**30. I see all the lies, corruption, propaganda, manipulation, censorship, bullying, violation of medical ethics,** lack of integrity in the scientific process, suppression of inconvenient adverse reactions, dismissal of legitimate concerns, hysteria, cult-like behavior, ignorance, closed-mindedness, fear, medical and political tyranny, concealment of protocols, lack of true concern for human life, lack of respect for basic human rights and freedoms, perversion of the Torah and common sense, demonization of good people, the greatest medical experiment of all time being conducted by greedy, untrustworthy, godless people, the lack of liability for those who demand I risk everything... I see all this and I have decided they can all have my place in line. I will put my trust in God. I will use the mind He blessed me with and trust my natural instincts.

Which leads to the final reason which sums up why I will not get "vaccinated."

**31. The Whole thing Stinks.**

# What is in the News?

## World War will begin within four weeks, warns Russian military analyst

Military analyst Pavel Felgenhauer revealed that the world could witness a deadly war within a month

By **Nirmal Narayanan**  
*April 5, 2021 13:51 IST*

Capitol Attack by Nation of Islam Follower

Pavel Felgenhauer, an independent Russian military analyst has warned that the world will witness a European or even world war within four weeks. Felgenhauer made this prediction after analyzing large-scale Russian military movements in regions close to rebel-held eastern Ukraine and annexed Crimea.

### **Russian moves hint at the possibility of war**

The West has already expressed concerns over Russia's military movement. Felgenhauer believes that the concerns expressed by the West are right, as unverified new footage appears to show military movements in Russia's Voronezh, Rostov and Krasnodar regions. Some footages show dozens of military helicopters close to the frontier, and the movement of tanks and other military vehicles using trains.

"The crisis has the potential to escalate into a pan-European war, if not even a world one. But for now, potential. Will it happen or not? Let's wait and see. In the West, they don't know what to do about it," Felgenhauer told Rosbalt news outlet.

As tensions are now escalating to new heights, Felgenhauer claimed that it now requires the service of a psychoanalyst to determine Russia's intentions in Ukraine.

"Address this question to a psychoanalyst. Do I need to explain? The facts are there, everything is already happening. The threats are growing, and rapidly. Much is not discussed in the media, but we are seeing very bad signs," added Felgenhauer.

### **The crucial stand of the United States**

In the meantime, the United States has pledged its steady support to Ukraine. US defense officials on Thursday revealed that they were aware of military movements that are happening in Russia. Russia, on the other hand, has vowed to take strict measures if NATO decided to send troops to Ukraine. Ukraine now alleges that Russia has 32,700 troops in Crimea. Ruslan Khomchak, the Ukrainian commander-in-chief, recently revealed that the country is prepared for all potential scenarios that could happen in the coming days.

## **Ukraine President Makes NUCLEAR THREAT Against Russian Crimea: "Will be an Exclusion Zone like Chernobyl; a Dead Area, WORSE than Chernobyl"**

WORLD NEWSDESK 16 APRIL 2021 HITS: 4127

<https://haltunnerradioshow.com/index.php/en/news-page/world/ukraine-president-makes-nuclear-threat-against-russian-crimea-will-be-an-exclusion-zone-like-chernobyl-a-dead-area-worse-than-chernobyl>

President Volodymyr Zelensky of Ukraine made an explicit nuclear threat against Russian Crimea today, during an interview with LeFigaro Magazine.

Asked by the interviewer what he thought the future would be for the two breakaway oblasts (states) of Luhansk and Donetsk (collectively referred to as "The Donbas") and of Crimea, Zelensky said: **"Donbass and Crimea would face a future comparable to the "exclusion zone in Chernobyl." "It will be a dead territory. It will be worse than Chernobyl"**

That, ladies and Gentlemen, is an explicit nuclear threat. As the entire world recalls, Chernobyl was the site of a nuclear reactor meltdown and explosion which spread such heavy radiation in the area, the region had to be permanently evacuated and the reactor sealed in a cement casing. No one can go into that zone or they will die from the level of radiation there.

Zelensky knows this, and yet today, he said the coming war would leave the Donbas and Crimea "like the exclusion zone in Chernobyl. It will be a dead territory. It will be worse than Chernobyl." Zelensky obviously seems to understand the coming war will "go nuclear" and he just PUBLICLY confirmed that he knows. Today's remarks precisely match what this web site reported **solely to its subscribers** yesterday after US Ambassador John Sullivan was summoned to the Russian Foreign Ministry in Moscow.

The information was restricted to subscribers so THEY would have an advantage in getting supplies in preparation for what's coming. I now release that information to the general public:

When Ambassador John Sullivan arrived at Russia's Ministry of Foreign Affairs on Thursday, April 15, he was told **"The United States has six days to cease all NATO activity inside Ukraine. Otherwise Russia will attack Ukraine and stop the NATO activity itself."**

Sullivan was so taken aback, and so shaken, he exited the Foreign Ministry via a side door rather than the main entrance and was whisked away by his limo without making any comments to gathered media outlets. Shortly after

that meeting, the United States imposed additional economic sanctions upon Russia, ejected ten of their Diplomats and called a meeting of the National Security Council.

If one figures that Russia was being reasonable in the 6 days warning, then today, Friday, was the first of those days. That leaves FIVE DAYS until the outbreak of war.

FIVE DAYS! This time frame also fits with another piece of information: Russian President Vladimir Putin has requested to address a Joint Session of his country's Legislature, (Duma and Elite) which is akin to the US House and Senate. That address will be given on April 21, precisely FIVE DAYS from right now.

There is a belief that the Russian President will explain to his legislature the existential threat Russia is facing, and ask their permission to use Russia's armed forces to confront that threat. The existential threat is quite simple: The US fomented, funded, and incited, the overthrow of the Democratically-elected President of Ukraine, Viktor Yanukovich back in 2014. Afterwards, the US and European Union (EU) bankrolled and installed a puppet government in Kiev, the capital of Ukraine. That puppet government is doing the bidding of the US and the EU.

Among the items on the list of Things-To-Do for the US and EU, is the establishment of US "anti-missile defenses" on the territory of Ukraine. If those missiles are put in Ukraine, they will be close enough to Russia's nuclear arsenal that they could be launched and hit the Russian arsenal within FIVE MINUTES.

Worse, those new missiles, with conventional warheads, can be re-fitted with NUCLEAR warheads, in under an hour. So Russia would face the possibility that US Missiles, perhaps fitted with nuclear warheads, could decapitate the

Russian nuclear arsenal before Russia could have time to even respond, thus decapitating the country and allowing an invasion and conquest of Russia. The Russians can never allow this. It would be the end of their nation.

The US and NATO are not backing down with Ukraine. They are sending more troops, weapons, equipment and vehicles. All this gear is being given to the 110,000 Ukraine army troops that were intentionally massed on the borders of breakaway oblasts (states) Luhansk and Donetsk, beginning about three weeks ago.

As of tonight, the Ukraine Army has 110,000 troops, over 400 tanks, over 900 pieces of artillery, staged within striking distance of both Luhansk and Donetsk, which is populated by mostly Russian-Speaking citizens. Ukraine began this build-up, yet, in the US and in EU, the mass-media is whining about "Russian Aggression" and complaining that "Russia is a threat to Ukraine."

They never mention - not even once - that Ukraine began all this trouble by massing over a hundred thousand troops, and by the issuance of a Presidential Decree outlining the forcible return of Luhansk, Donetsk AND CRIMEA, to Ukraine!

Crimea held a Referendum in 2014 during which 96% of their voting age population cast Ballots to LEAVE Ukraine and return to Russia. After the vote, the Russian Duma enacted legislation accepting Crimea back into Russia and that was the end of it. Not anymore!

Ukraine refers to Crimea as "Russian-occupied" territory of Ukraine! They have publicly stated they intend to take it back from Russia, yet Russia is called the "aggressor;" the "threat!"

Ukraine intends to ATTACK Luhansk and Donetsk to prevent them from leaving Ukraine and joining Russia just like Crimea did. Ukraine also says, via Presidential Decree, they intend to take back Crimea. Russia is defending its own territory. If Ukraine uses that army to also attack civilians in Luhansk and Donetsk, Russia has made clear the Russian Army will protect those civilians.

Throughout this 3 to 4 week build-up, which the mass-media has dismally failed to report, Russia has RESPONDED to the military moves by Ukraine and Russia's response has been disciplined exactness. The Russians have done everything right; the US and EU are the culprits; the villains, here. So here we are, 11:00 PM on Friday, April 16, with now only FIVE DAYS remaining in Russia's time limit to Ambassador Sullivan.

We have the President of Ukraine telling a magazine that the Donbas and Crimea will be like "the exclusion zone in Chernobyl. It will be dead territory. It will be worse than Chernobyl" and five days from now, it seems the trouble will be settled via a fight.

Americans must be aware that the USA is 70% of NATO. If NATO gets involved, ALL NATO countries would then be targeted by Russia. And if Russian troops in Crimea are hit with nukes, WE WILL ALL BE HIT BACK. With nukes. Here. In America. And there, in Europe.

5 Days remain in the Russia statement to US Ambassador Sullivan. You have that much time to prepare. You need Emergency food, water, medicines you need to live. You need a way to generate your own limited electricity (small generator) to keep your refrigerator running and not lose all your food if the grid goes down. You need FUEL for that generator and for any vehicles that may need gasoline. You need a Fire Extinguisher, a First-Aid Kit. Guns. Ammunition.

You need COMMS in case the phones and Internet go down: CB radio, HAM radio, GMRS radio to keep in touch with family members and to hear what's going on locally and nationally if Cable, TV and FiOS go down.

You need a PLAN: What will you do if you need to evacuate because you live near a major military base or major city or seaport, which may be a nuclear target? Where will you evacuate to? What will you take with you? Who will you visit to live with until you get back on your own?

If you do nothing, make NO preparations, and decide to "wait and see what happens" then YOU will be shit out of luck when the missiles start flying because the general public will totally panic and there won't be ANY food or supplies left on store shelves.

Just like happens whenever a Hurricane is coming. The masses (who are asses) never gear-up. They always wait and see. Then, when they realize they're about to get slammed, they all go shopping in a panic, wiping out store shelves. You've seen it. Happens all the time. So yOU now have a heads up and a SMALL time frame to take steps to survive. The rest is up to you.

## **Biden declares Russia threat 'national emergency,' lobs sanctions; 10 diplomats booted over election meddling**

US Department of State said it is expelling 10 officials from Russia's bilateral mission

[President Biden](#) on Thursday signed an executive order declaring a "national emergency" over the threat from Russia, as his administration slapped new sanctions on the country.

The U.S. Department of State said it is expelling 10 officials from Russia's bilateral mission.

"Today, we announced actions to hold the Russian Government to account for the SolarWinds intrusion, reports of bounties on U.S. soldiers in Afghanistan, and attempts to interfere in the 2020 U.S. elections," Secretary of State Antony Blinken said in a statement.

**President Biden, when asked if he thinks Russian President Vladimir Putin is a "killer," during a recent interview, said yes. (AP)**

### **SECRETARY OF STATE BLINKEN VISITS AFGHANISTAN IN SURPRISE TRIP AFTER BIDEN TROOP ANNOUNCEMENT**

The White House also released a letter to Congress stating that the president has issued "an Executive Order declaring a national emergency with respect to the unusual and extraordinary threat to the national security, foreign policy, and economy of the United States posed by specified harmful foreign activities of the Government of the Russian Federation."

The letter said that Russia had aimed to "undermine the conduct of free and fair democratic elections," engaged in "malicious cyber-enabled activities," targeted journalists and dissenters outside of its borders, and violated international law.

This, Biden said in the letter, constitutes "an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States."

**In this Feb. 4, 2021 file photo, Secretary of State Antony Blinken speaks at the State Department in Washington. The Biden administration's early efforts to resurrect the 2015 Iran nuclear deal are getting a chilly early response from Tehran. The Biden administration announced new sanctions on Russia on Thursday, including expelling 10 Russian diplomats from the United States. (AP Photo/Evan Vucci, File) (AP)**

Blinken's statement went into more detail, citing not only the SolarWinds hack that compromised many agencies in the federal government but also the poisoning of top Putin political rival Alexei Navalny.

### **PUTIN SO UPSET OVER BIDEN'S KILLER COMMENTS HE MOVED 28,222 RUSSIAN TROOPS TO UKRAINE BORDER, REPORT**

"We remain concerned about Navalny's health and treatment in prison, and call for his unconditional release," Blinken said. Navalny is currently in the custody of the Russian government and reported not to be well. White House Press Secretary Jen Psaki previously said that "[t]he Russian government is responsible for his health and well-being."

Blinken also emphasized Thursday, however, "the United States will also seek opportunities for cooperation with Russia, with the goal of building a more stable and predictable relationship consistent with U.S. interests."

Kremlin Spokesman Dmitry Peskov, according to the Russian state-run media organization TASS, said "[w]e condemn any pursuit of sanctions, we consider them illegal. In any case, the principle of reciprocity in this matter is valid; reciprocity in a way that best serves our interests."

"It goes without saying that possible sanctions being discussed would by no means promote such a meeting," Peskov also said, regarding a potential in-person meeting between Putin and Biden.

Russian foreign ministry spokesperson Maria Zakharova meanwhile said at a news conference that Russia has summoned the U.S. ambassador for a "hard

conversation," but didn't immediately detail specific retaliatory actions from Russia.

The tough stance from the Biden administration comes as tensions have escalated between the U.S. and Russia during the president's first three months. Biden called Putin a killer in his first sit-down interview after taking office. Putin was reportedly so upset over the comment that he left his quarantine, got a COVID-19 vaccination and moved 28,000 Russian troops to the border with Ukraine.

Russian Bear bombers went into action, forcing NATO to scramble 10 jets to intercept the Russian warplanes flying over the North Atlantic Ocean earlier this month, a rare show of force near the Arctic. Last week, Putin quietly changed Russia's constitution to allow him to stay in power until 2036. He would be 83 years old.

When three Russian submarines burst through the Arctic ice in a synchronized exercise in late March, the Pentagon took notice and Putin praised the naval achievement. Each Russian sub can carry 16 ballistic missiles.

"We're monitoring very closely. Nobody wants to see the Arctic as a region become militarized," Defense Department press secretary John Kirby told reporters at the Pentagon.

The tensions between the U.S. and Russia have experts worrying about a new "Cold War."

# Could The U.S. Could Soon Be Involved In Wars In Taiwan, Ukraine And The Middle East Simultaneously?

April 12, 2021 by Michael Snyder

Warmongers are now firmly in control in Washington, and they are pushing us toward war a little bit more each day. A military conflict with Russia, China or Iran would be a nightmare scenario, but there is also a possibility that we could end up fighting all three of them simultaneously. Such an outcome would have been unthinkable under the Trump administration, but times have changed. Biden administration officials have been boldly declaring that “America is back”, and they have been trying to aggressively exert U.S. influence all over the globe. Unfortunately, the rest of the world is not as intimidated by the U.S. military as it once was.

Tensions with China have been rising for quite some time, and Taiwan has become the central point of contention.

Taiwan continues to edge closer to declaring formal independence, and the Chinese insist that is a red line that must never, ever be crossed.

In recent weeks, the Chinese have been attempting to send a message by repeatedly sending military aircraft into Taiwan’s airspace, and on Monday we witnessed the most alarming incursion yet...

*China’s People Liberation Army flew 25 warplanes into Taiwan’s air defence identification zone (ADIZ) on Monday, its largest incursion yet as tension in the Taiwan Strait continues to escalate.*

*According to Taiwan’s defence ministry, the PLA warplanes – 14 Jian-16 fighter jets, four Jian-10s, four H-6K bombers, two Y-8 anti-submarine warfare planes and one KJ-500 airborne early warning and control aircraft – entered the island’s southwest zone on Monday.*

China has been conducting extremely detailed military exercises which simulate an invasion of Taiwan, and the military plans for such an invasion are already drawn up.

Everything is ready to go for when the order is finally given.

The only thing stopping the Chinese is the U.S. military, and on Sunday Secretary of State Antony Blinken once again confirmed that the U.S. will stand behind Taiwan...

*“What we’ve seen, and what is of real concern to us, is increasingly aggressive actions by the government in Beijing directed at Taiwan, raising tensions in the Straits. And we have a commitment to Taiwan under the Taiwan Relations Act, a bipartisan commitment that’s existed for many, many years, to make sure that Taiwan has the ability to defend itself, and to make sure that we’re sustaining peace and security in the Western Pacific. We stand behind those commitments. And all I can tell you is it would be a serious mistake for anyone to try to change the existing status quo by force,” Blinken said Sunday during an interview with NBC News’ Meet the Press.*

China understands that an invasion of Taiwan would mean war with the United States, and so the Chinese will probably hold off for the moment.

They will be waiting for an opportunity, and that could come when we are tied up with a major military conflict on the other side of the globe.

Speaking of which, the Israeli cyberattack on the Natanz nuclear facility is yet another sign that the “shadow war” between Israel and Iran is getting dangerously close to a shooting war.

Israel has not formally taken responsibility for the attack, but even the Israeli media is acknowledging what everybody else already knows...

*Iran blamed Israel on Monday for an attack on its underground Natanz nuclear facility that damaged its centrifuges — sabotage that imperils ongoing talks over Tehran’s tattered nuclear deal and brings a shadow war between the two countries into the light.*

*Israel has not claimed responsibility for the attack, but Israeli media widely reported that the country had orchestrated a devastating cyberattack that caused a blackout at the nuclear facility. Israeli officials rarely acknowledge operations carried out by the country's secret military units or its Mossad intelligence agency.*

In the aftermath of the attack, Iranian officials pledged to "take revenge" on Israel...

*"The Zionists want to take revenge on the Iranian people for their success in lifting the oppressive sanctions, but we will not allow it and we will take revenge on the Zionists themselves," Zarif said in comments carried by Iran's official IRNA news agency.*

If a major war does erupt and missiles start flying back and forth between Israel and Iran, the U.S. will enter the conflict on the side of Israel.

The Iranian nuclear program has been a seemingly unsolvable problem for a number of years, and I think that Israeli leaders are starting to realize that there simply is not going to be a diplomatic solution.

Meanwhile, Russia and Ukraine continue to edge closer to a major military conflict. In fact, one of the most popular news anchors in Russia just stated that the Russians may be forced to "de-Nazify" Ukraine by force...

*Russia is 'one step from war' with Ukraine, state TV has warned in the latest bout of sabre-rattling between Moscow and Kiev that has jangled nerves across Europe.*

*Dmitry Kiselyov, a Russian news anchor who has been called a 'Putin propagandist' in the past, issued the warning during a primetime broadcast in Russia on Sunday.*

*He branded Ukraine a 'Nazi' state, saying that Russia may be forced to 'de-Nazify' it by force – a process he said would bring about its 'economic and military collapse'.*

And a top Russian official just made headlines all over the world by suggesting that a full-blown military conflict "would be the beginning of the end of Ukraine"...

*The deputy head of Russia's presidential administration, Dmitry Kozak: "I support the assessment that the start of military action – this would be the beginning of the end of Ukraine."*

Of course, things would have never gotten to this point if the Biden administration hadn't decided to use Ukraine as a tool to put pressure on Russia.

I do not think that Russia intends to invade Ukraine right now. But when the Russians learned what the Biden administration and Ukrainian president Volodymyr Zelensky were planning, they rapidly massed forces in Crimea and eastern Ukraine.

The Russians are going to keep those forces in the region for the foreseeable future, and that is going to keep tensions high.

Hopefully this show of force will convince Biden administration officials that they should not try to push things any further. Because the Russians are quite willing to strike first if they believe that a move by the other side is imminent.

And once the Russians start pouring across the line of separation, the U.S. and Russia will be at a state of war, and that is something that nobody should want to see.

Of course the United States can't exactly afford any new wars at this point, because we are absolutely drowning in debt.

If you can believe it, our budget deficit for the month of March was a whopping 660 billion dollars...

*The U.S. federal budget deficit widened 454% in March from a year earlier, as the government issued a third round of stimulus checks to help Americans ride out the economic fallout from the Covid-19 pandemic.*

*The budget gap rose to \$660 billion in March, the Treasury Department said Monday, from \$119 billion in the same month last year. Revenue rose 13% to \$268 billion in March, while spending increased 161% to \$927 billion.*

A budget deficit of 660 billion dollars for an entire year would be bad enough.

To achieve that level in just one month is catastrophic.

Needless to say, even one war would make our fiscal situation much worse, and multiple conflicts would probably break us financially.

Of course, if a global war does erupt, financial problems won't exactly be among our greatest concerns at that point.

## **Words from the Prophets**

### **Watchman on the Wall**

04/07/2021, Byron

Jeremiah 18:

“If that nation, against whom I have pronounced, turn from their evil, I will repent of the evil that I thought to do unto them.”

My son, I have said that if a nation will turn from their evil ways and repent, then I will repent of the evil that I thought to do to them.

But I say, I REPENT NOT!!

For you - as a Nation - have NOT repented nor turned from your evil ways.

I gave you four years to repent with an easy king, but you chose to follow the KING instead of ME.

You took off the Yoke of Wood, and you put on the Yoke of Iron. Now, I am tightening the yoke - soon you will not be able to breathe.

You, My people, have laughed and scorned those whom I have sent to warn you of your evil ways. You have chosen to follow those who tickle your ears with lies.

My son, a GREAT WAR is now upon the earth, and My people are more concerned about getting back to normal. They want the fluffy lies that false teachers and pastors spew. They want to worship Me with music that comes from the pits of hell, which I hate.

I know your hearts, and they do not worship Me. They want to say long prayers and splash oil on those who are desperate. I NEVER DID THAT -- I SPOKE IN FAITH!

YOU HAVE NO FAITH, BUT SOON YOU WILL!

My son, I have said that the Bear has been poked, and now the time has come for My judgment upon this Nation. It will start over there, but will cover the whole earth in blood.

I say REPENT NOW! Turn from your evil ways and return to Me. I will be your strong tower. I will be your shield and buckler. I will be your mighty God, and you will be My children.

I say REPENT NOW! War is coming very soon. The iron yoke will be drawn tighter, and you will WANT to be locked down. Many will perish by the poison they chose over Me.

I LOVE YOU. PREPARE!! PREPARE!!  
Amen. Lord Jesus

## **Such a Debt, who can Pay?**

**I am continuing to run this story, as this is a great witnessing story to use to lead someone to Jesus Christ. I believe this could be the study you will want to share with your unsaved friends and this story and the scriptures can let them know how much God loves them and wants to forgive them.**

While attending Bible College years ago I enjoyed reading stories I could use to share the Gospel and I would put them into a note book for later use. I found this story about Czar Nicolas the leader of Russia. It was such a good story of forgiveness that I have never forgot it.

So I asked my barber if he had ever heard of Czar Nicolas? He said no so I proceeded to share this story.

Czar Nicolas the king of Russia would from time to time travel to outposts in Russia disguised as someone else so he could see for himself what was going on in his country.

As he was making his tour late one night in this one particular outpost he was walking down the halls of this town hall kind of building and he noticed that the lights were still on in the office of the town treasurer.

Let me go back and explain what was going on in this office. The treasurer for this out post was misusing funds, He was losing money gambling and thinking his luck would turn back he kept digging a bigger hole that would eventually bury him. Then one day it was the day of reckoning. He received a notice that in a couple of days the bank examiners were coming to check the books and do an audit.

He knew he was in big trouble so on this same night that the Czar would be walking the halls of his office, he was up late counting money and figuring out how much trouble he was in. When he finished adding up the debt that he owed, he knew he was in to deep and there was no way out. His solution was he would take his life. He had his pistol on the table and when he finished adding up the debt he owed he wrote these words at the bottom of the balance sheet. **“Such a debt, who can pay?”**

He was overwhelmed with fatigue so he laid his head down on the desk and fell fast to sleep. While he was sleeping, this is when the Czar of Russia spotted the light on so late in the office of the Treasurer. The Czar saw the door was unlocked and he walked in. He sees the man sleeping, he sees the gun lying by his hand and he looks at the record book and realized this man had been stealing from his kingdom, a crime that would mean the death penalty and disgrace. Then at the bottom of the balance sheet the Czar spotted these words. **“Such a debt, who can pay?”** This is when the Czar picked up a pen and under the words, **“Such a debt, who can pay?”** the Czar signed his name and walked out the door.

Just before morning the treasurer woke up and realizing how long he had been asleep, he reached for his pistol to take his life and just before ending his life he looked down at the bottom of the balance sheet and saw the signature of Czar Nicolas. Finding this hard to believe he looked into his files for a document with the

Czar's signature and sure enough the Czar had been there that night and paid his debt. The next day men from the Treasury of Russia arrived with bags containing the missing money and his debt was paid in full.

**The Bible says that we will all stand before God and be judged from what has been written about us in the record books of our lives.** We all have been assigned guardian angels to watch over us and record every word, thought, good deeds and bad.

Just like that man in charge of the cash of his town in the story above, God has access of the record books of your life. We owe a debt that is **“Such a debt, who can pay?”** If you will call out to Jesus the one who died to pay for your debts. If you will ask Jesus to forgive your sins, Jesus will take his eraser and wipe out the sins that have been recorded in the record book of your life. Then at the bottom of the blank pages of your record book, Jesus will sign His name with these words. **“Paid in full by Jesus Christ.”**

**Below I have written out important scriptures for leading someone to Jesus and I have included the sinners prayer as a guideline for leading someone to Jesus.**

## **Share God's Plan of Salvation**

### **1. Admit you are a sinner and repent.**

(Romans 3:10 NIV), “As it is written: There is no one righteous, not even one.”

(Romans 3:23 NIV), “For all have sinned and fall short of the glory of God.”

(Luke 5:32 NIV), “I have not come to call the righteous, but sinners to repentance

### **2. Believe in the Lord Jesus Christ.**

(John 3:16 NIV), “For God so loved the world that He gave his one and only Son, that whosoever believes in him shall not perish but have eternal life.”

### **3. Confess or declare that Jesus is the Lord of your life.**

(Romans 10:9 NIV), “That if you confess with your mouth, ‘Jesus is Lord,’ and believe in your heart that God raised him from the dead,

you shall be saved.

## **The Sinner's Prayer**

If you would like God to forgive all your sins and make Jesus Christ the Lord of your life, then stop here and say this prayer to God. (Prayer is simply talking to God.)

**Dear Heavenly Father, I know I am a sinner. I believe Jesus Christ died on the cross for me. Please forgive me of all my sins. Jesus, please come into my heart and wash my sins away. Please be the Lord of my life and help me to live for you every day. I ask this in Jesus name. Amen.**

The Bible says when a sinner repents and makes Jesus his Lord, the angels in heaven rejoice. A word of warning is advised at this point. As we read in the story of the ten virgins, not all who call themselves Christians will make it to heaven. Knowing about Jesus and the plan of salvation is no guarantee of making it to heaven. When we arrive in heaven, the greatest surprise will be seeing people we did not think would make it. And just as surprising will be the absence of those we thought would be there. The Bible says Jesus knocks on the door of our hearts and wants to come in and live with us. The important thing to realize is God wants our hearts, not just our minds. Head knowledge about salvation does not save us, but sincerely allowing God to forgive and wash our sins away will allow God to give you a new heart. When your heart is changed, people will notice you have been changed and made into a new person in Christ. This is called being "Born Again."

## **Food Offers**

The food offers I have been sharing in my newsletters are no longer available. Augason Farms are working two shifts to rebuild their inventory. The best way to order is to go online at [Augasonfarms.com](http://Augasonfarms.com) and only order the products they say they have in stock

I am also suggesting Ready Made Resources, I have dealt with them for years and they are reliable. Ask for Bob Griswold. 1-800-627-3809. I believe at last report their ship times are about two weeks.

Don't look to get food at just one location. There does not seem to be a run-on rice and beans yet. I would suggest cans of beans, gravy, sauces you can use on rice and beans.

### **Special Burkey Type stainless steel Water filter Offer**

Augason special offer, this unit is about two feet high with the upper chamber holding about 1.5 gallons. Similar unit's retails for \$300.00 and this month is available for \$119.99. My wife has fallen in love with our unit, when she is making a large batch of ice tea, she has all the filtered water ready and waiting. Call Ethan. 801-869-8105
