Proverbs 22:3 (KJV)

A prudent man foreseeth the evil, and hideth himself: but the simple pass on, and are punished.

Big, Wide, intense fire!

(Vision of June 28, 2021 3:00AM)

I slept at ~11:00PM. I woke up at 12:00PM, again at 1:00AM, then at 3:00AM. Every time I wake up, I am praying. I was so upset when I wake up the third time at 3:00AM, called on the name of God, all the names of God I know and made a strong prayer. I made my point that it is too much to bear. I was under sever spiritual attack. In a little while, I slept and saw a big, wide fire and smoke to the east, close to where I am, These are the word I used in the last vision and it is also true now ***“It was so real, in my face, as if I was there close to the action, I was shocked.”*** The big wide fire and smoke covers/engulfs a wide area, dark black smoke to the left, to the North side. The fire and the small smoke to the North has covered everything, there is nothing to see, humans, buildings, it is all fire and smoke. It was a flash vision. I went back to sleep and heard a voice say ***“Their judgement is going to be sever” ie they will be judged severely.***

I live in the great lakes area, Midwest. What I saw looks so close to where I live. Nothing is revealed to me what caused this big intense fire and where it is.

Just before the pandemic struck, I saw a big thick smoke in a big city with high-rise buildings. That was in a far distance and clear. We were interpreting the vision differently but that was just before the pandemic in New York. I have posted what I saw about New York N. Explosion. It is not clear to me if this is related to the vision I had but looks the same. (**New York City!** MCKANA, AUGUST 9, 2020 3:04 PM <https://444prophecynews.com/new-york-city-mckana/>)

The fire is the fire, the small thick dark smoke to the North of the fire is related to another sever pandemic.
