

***America! The West coast no more!
Time to Listen-III***

(East America, West America, Iceland America and California gone under the ocean)

John 12:31(KJV)

Now is the judgment of this world: now shall the prince of this world be cast out.

Ezekiel 36:25 (KJV)

Then will I sprinkle clean water upon you, and ye shall be clean: from all your filthiness, and from all your idols, will I cleanse you.

The Lord has revealed to me, over eight times, the fate of the west cost, California. Yes, many have given a very exhaustive and repeated messages since the 1930s. Science is not to trust. They use to tell us the earth is six billion years old, now it has become 4 billion years. This is a big mistake. All the geological dating mechanisms which depend on Absolut, radioactive dating and relative soil strata dating mechanisms are not to trust. For that matter, science doesn't have a forecast mechanism for earthquakes. The wild animals are much better, they know before earthquakes strikes and take their run ahead of time..

The prophecy of Zechariah tells us ***“And his feet shall stand in that day upon the mount of Olives, which is before Jerusalem on the east, and the mount of Olives shall cleave in the midst thereof toward the east and toward the west, and there shall be a very great valley; and half of the mountain shall remove toward the north, and half of it toward the south” Zechariah 14:4 (KJV).*** That is exactly what the Lord showed me in the second coming. I saw the Lord land on the lower ground of the olive garden and the land is cleaved South to North and I saw fresh ground under the feet of the Lord. What is interesting about this prophecy is, if one visits the geographic map of the earth or the website of USGS, one will find a fault line which runs from the Red sea up through the Olive garden and proceeds to modern day Turkey which was the old nations of of Greek, Armenia and Kurdistan. Zechariah lived 450 years before Christ(BC). The Lord doesn't only know the land will cleave along the Red sea Faultline but makes it happen. When does science woke up to know about geological fault lines of the earth, merely 100 years. Man deciphered the crystal structure of the DNA just in the 1950s. Science knew about the small functional unit of the DNA called “The Gen” and it operating system just in the 1960. The knowledge of mankind is very young and very limited. Trust the Lord in every word He tells us and in everything

He does. Trust no man. God created man for science to decimate humanity with nuclear weapons. So much about man and the knowledge of man.

Regardless of the unreliable scientific predictions, California could have been long gone had it not been to the patience and mercy of the Lord. Now, the patience of the Lord is run out, it is no more! no more! no more! The fat of California is sealed. What is left is "Time is Up." I have heard the Lord say "***I will clip the contour,***" California, California a number of times and shaded my tears thinking it is coming the next day. More than enough warning has been given. Any day, any time a drastic change will come for the entire world to be shaken.

Out of the eight dreams and visions I am given, I present two of them. Many know about it, many are board of hearing about it but none can stop it.

The San Andreas Faultline gives off

(Vision of 2012)

This is an amazing vision. In my place in the Midwest, I am sitting facing east. There is a street which goes all the way from east to west. On the building right in front of me, through the door, I see a big mirror on the wall facing west. Through this mirror, I can see all the way to the west coast. In the same way, on my back, there is another mirror facing east. Through the mirror in front of me, I can see also the mirror behind me to give me a view of all the way to the east. Through the two mirrors, I can see all the way to the west and the east following the long street.

Through the mirror in front of me, I see the west coast up to the San Andrea's fault line which goes South to North. I see a section of the Faultline. There is a big earthquake, the land east and beyond the Faultline has given off. The land is crumbling, the buildings are falling and few people are scrambling running here and there either to save their lives and help others.

This is the mega earthquake which clips the coastline beyond the San Andreas fault line. What looks remote years ago is going to be the dreadful reality of the days to come.

California Earthquake-Last warning.

(Vision of October 15, 2017 1:30AM and 4:00AM)

I see chairs and tables being pushed. Few, finely/elegantly; dressed people are pushing **a whole set of tables and chairs as they are together, quarter of a football size, all at ones.**, raw after row. They are pushing them first **to the East, then to the North** and push them all to store them in a house, big auditorium like setting.

One group is pushing the set of table and chairs to **the North-East** and store them in the same way. They pushed it over a high cliff like stairs. After they are done, **the whole stairs made of stone collapsed and sunk to the ground crumbling.** I turned to the right, **rows of high raise buildings are crumbling like the side of a mountain, falling to the ground with the dust cloud and debris falling** to the ground. I looked far to the North. There are buildings on a range/chaines of mountains. The buildings look resting on a small but very long range of hills/muntains. **They started crumbling from the North down south.** I started screaming loud saying "***sound the alarm, warn them, tell them!***" to the station on the left but **it is too late. No alarm, No warning**, no escape. **The whole row after row of the buildings along the mountain range collapsed and fall to the ground with so many people in them** No warning, no time to escape, all gone. I held my head and started crying, screening and shouting, then I woke up

Then at 4:00AM, I saw another dream, the same region, first a standing metallic poll, a wave from the pole to the West and from the poll to the North. It is an Earthquake with the poll, Epicenter, close and in the middle of the range of the the mountain building I saw above, the fault lines. It is an Earthquake like we have never seen before, **California Earthquake.**

I have to think and inquire and ask what it is. It is the land moving like a table **Cascadia Subduction zone** and the **San Andreas fault line.**

I have seen the California Earthquake few yeas ago. This one is a warning that time has run out and the megaquake is immanent. It is gong to be sudden without warning. Lord d have mercy

Time to Repent for it is already too late!
