

***America! America! America!  
Time to Listen!***

McKana, March 10, 2022

Vision-1 (Nov. 13,2019)

Vision-2 (Nov. 13,2019)

***Proverbs 22:3***

***A prudent man foreseeth the evil, and hideth himself: but the simple pass on, and are punished.***

-----//-----

The message I am given from the Lord is about the life of tens of millions of people, the people in the east cost, from Florida way up to Canada. I live this message every day. It is very real, real than the reality you know. This is the third time coming to deliver this message. Since no one seems to listen and take the warning seriously, I am compelled to deliver two of the messages I am given to wake the east cost up. The west cost and the center is no different. The judgment is for all. It is up to every individual to do what is required of them. As much difficult it is to deliver these messages, it is as well challenging to accept the reality and take the proper action. As to the person delivering this message, it is from the concern of the life of many here on earth and life eternal. Call us names, whatever you want, we are used to it but save your lives. At least, do not die before you repent or you will perish. The alarm is on. Do you feel the intensity in the air?

Almighty God has decided. Nothing will change what is coming. ***Time is racing fast to it end.*** Ignoring the warnings given by many is equal to sentencing the ultimate on self.

This will come to pass, with the utmost certainty. The time is near and here. The storm has been building up this long and now it is time to hit hard more than one can ever imagine. This is only one aspect of the coming storm.

***The Atlantic Tsunami. Flood and Earthquake.***

***The Earth split opened.***

(Vision of March 25, 2016. 11:00AM)

I am running in a field from the East to the West. I don't know what I am running from. I felt an Earthquake and stopped. The Earth started swaying. I stopped and looked back. There is flood coming, enormous amount of water is flooding a very wide area in the region where I live, Midwest. I tried to see the source, it is coming from the ocean. ***In a clear daylight, clear blue sky Wave after wave, wave after wave of the ocean water from Atlantic is storming towards the land, as far as and beyond a normal eye can see.*** The level of the ocean has risen high and I see it inclined towards the land and it is right in front of my eyes. ***The tidal waves are mountain high, very high.*** One of the waves is very high

than the ones in front and and back. I said ***“No one is going to service this”*** and wondered if it can come to our area, Midwest. The tidal water keeps flowing and there is no visible boundary between the land of the east cost and the sea. Then, the Earth started to split opening up, It started opening from East to West, between the Carolina’s and Delaware. It encompasses areas across some hills or mountains. It is getting wider and stopped. I see few people, not many, falling in the freshly opened Earth. They are talking, loud, unaware of what has just happened. I don’t know what they are saying but making noise not screening

***The Demarcated geographic map of the US.  
Marked for Judgement (see the map above)***

(Dream/Vision of November 13, 2019, 11:35 PM)

**Vision -1 Marked for Judgement**

I just slept and didn't last long. I see the geographic map of the US way from above. I see the land, the greenery, the mountains, the plain land, all clearly like one sees the land from a satellite. ***The land is marked by the very hand of the Lord.*** I see the gray line drawn with a fast moving finger, North to South over the mountain. I see a clear line marked from the North to the south. The clear line I see is a little further past the Appalachian mountains. There are other lined demarcated in other region but this one came out clear and understandable. ***This is how far the Atlantic tsunami goes.*** I saw this and knowing what I know in part, I continues with my sleep without giving it much thought. The line drawn from North to South, through the eastern cost of the USA, little further to the west of the Appalachians mountain is clearly how far the Atlantic Tsunami hits. ***The Appalachians mountain are the boundary.***

**Vision-2 The Atlantic Tsunami flooding the inland.**

In less than 10-15 minutes, I saw the descriptive map but with flood as water is released through canal at the same time. I see big flood rushing in the land. The map of the US clearly way down to my view. I have seen earlier the Atlantic Tsunami, years ago(the vision given above), soaring high like a mountain galloping wave after wave to the East cost and the land splitting in the region of Delaware/the Carolina’s. What I saw now is not the Atlantic Tsunami but the continuation of the Atlantic Tsunami past the eat cost. This is past the coastline which is submerged by the Tsunami. I see clearly the water rushing inwards through the lowlands and channels. It is like a water released through canals, multiple canals, many of them at the same time. The difference is, this gust of fast flood is twisted according to the landscape. In the North, I see the speedy flood rushing through the twisted canal between Canada and the US all the way to the great lakes. The same everywhere towards in the Middle and Southern region of the main land. It goes all the way to the Mississippi but not marked on the line. The big flood flows fast like a stream inland with all its twists. The mountains, high lands and most of the land can be seen but the flood, big fast flood is everywhere. It is the Atlantic Tsunami going fast to the mainland finding ways wherever possible, with fast speed and relentless force. ***The flood water is turbid with soil.*** I don't see anything of the East cost from North to south, submerged by the tsunami as demarcated. My attention is on the inner land, way passed the Appalachians. There is no detail, no houses, buildings cities and towns, it is from way up but the turbid fast moving flood with it twists all over the main land. The Demarcated Map shows, the tsunami pass some distance further from the Appalachians Westwards. The enormous strong flash of flood is in the inland way passing the Appalachians. In that short instant, I saw what is coming, clearly. In the last two years, I have given many messages regarding the Meteor impact and the mega earthquake in the Iceland of the Atlantic which bring this huge Atlantic Tsunami.

***Repent! Repent! Repent!***

The Imminent Atlantic Tsunami and flood, NOVEMBER 15, 2019, MCKANA
