

The Police State and The Nuclear Strike.

McKana, March 3, 2022

Isaiah 2:4 (KJV)

And **he shall judge among the nations**, and shall rebuke many people: and they shall beat their swords into plowshares, and their spears into pruninghooks: nation shall not lift up sword against nation, neither shall they learn war any more.

It has been over 8 years since the Lord revealed to me one mysterious dream. I understood it partly, not the whole. It looks clear but it has more deeper meaning to it and the timing of it matters too.

-----////////-----

To make it understandable, let me first describe the setting.

It is a small town where I attended elementary school. There is a street which goes from South to North. Going North, to the left, there is the police station, the administration, the court and a prison in one small compound. Since it is the administrative center, it is a very crowded place. On the right across the street, opposite to the administration center is our house. A couple of miles to the North, on the left side in line with the administration center is the house of the Governor of the small town. Events are happening in the three centers-the Police station, our house and the house of the Governor. The two visions are given in an interval of almost a year, but referring to one and the same point. I came to understand the “full meaning” just yesterday and prompted to release the vision as one connected event of the judgment of the Lord. The Lord speaks directly and sometimes in a mysterious way.

The Nuclear explosion on the Police state.

(Dream-vision of 2013)

Part one-The Nuclear attack.

This revelation is given when I was in Michigan.

In the police station of the administration center, I see a crane, a big machine with long arm which can stretch a long distance. The crane is stretching across the street and demolishing our house. It is hitting the roof from above. In that instant, before the house is smashed down, **a nuclear bomb came from the open sky**, from the back and struck the operator of the crane with out the awareness of the operator (the name of the operator is dawn, new day break). The fire from the explosion of the nuclear attack got expanding, fire raging and going out miles in all direction. I am running away from the nuclear fire, running uphill toward the south. I woke up before the fire engulf me.

Russian army on the backyard of the White house.

(Dream Vision of 2014)

Second part-The Invasion.

This revelation is given when I was in Maryland.

In the same street of that small town, a Russian roller loaded with big nuclear warhead is rolling toward the house of the Governor. It turned to the left to enter the gate of the house, had difficulty entering the compound. It struggled a little to enter the gate. Now, I see a Russian military vehicle loaded with heavy machinegun shooting running inside the compound. I took cover behind a big tree. Now, it is **the backyard of the White house**. I am screaming **“The Russians are here, the Russians are hear!”** I am shouting very loud, thinking I can be heard from far away. No one cared and I woke from my own screams.
