

## ***The Heavens are Shaken- One more Sign.***

McKana, September 7, 2022

### ***Haggai 2:6(KJV)***

*For thus saith the Lord of hosts; Yet once, it is a little while, and I will shake the heavens, and the earth, and the sea, and the dry land;*

---//---

Something significant happened on September 5, 2022. The far side of the sun exploded in a way scientific observation have not witnessed before. The good thing is, for now, the event happened on the far side of the sun. We have heard many prophecies from the Lord telling us, CME( Coronal Mass Ejection) will do harm to what is orbiting the earth, to the atmosphere of the earth and to the earth. A major CME will wipe out the satellites in space and result in the disruptions of what is out in space and the technology related to it. Few days earlier, we posted the impact of CME. If this CME have faced the earth, the impacted could have been significantly and the result would have been:-

***“Lose of communication-No Satellite, No TV, No cellphones, no ATM, No bank transfer, lose of power and what follows from lose of power (no light, no heat, no water, no gas etc), No GPS -No flight, no landing.”*** The earth has not experienced this before and there are many unknowns.

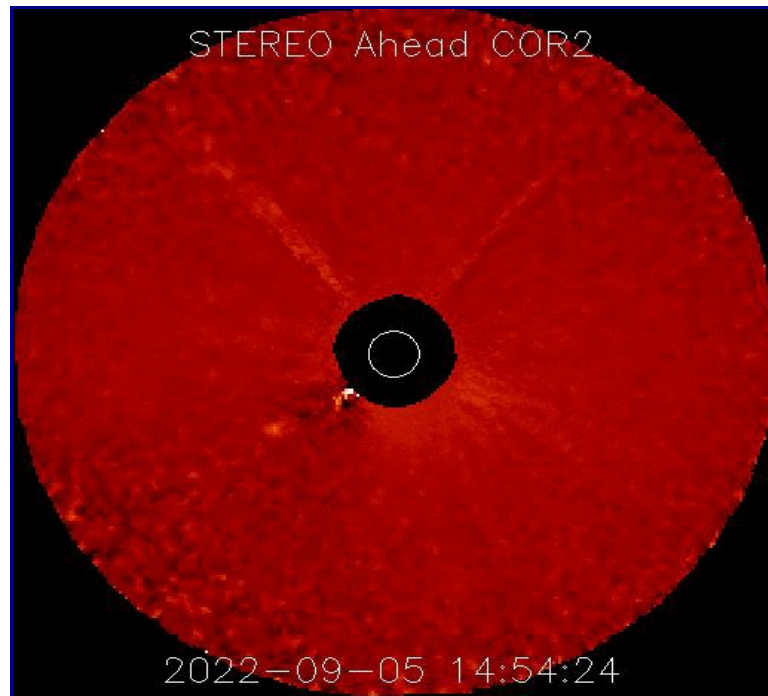

Eventually, the far side of the sun will face the earth in few days. The earth will certainly experience the impact of this kind of massive explosion of the sun, but when. The time for the heaven and the earth to shake is now, this is one sign.

What is the message?

1. The prophetic event for major CME is near, it will certainly come to pass, this is the sign.
2. What is the preparation for such kinds of events?  
Homework for all.
3. Like the incoming big meteor and earthquakes, this doesn't have an early warning, this is the warning.
4. Their theory of “Climate Change” is dead. Their theory of climate change is man made. This doesn't have anything to do with the hand of man. This is part of the judgment, the result of the sin of man. The creator, Almighty God, controls everything He has created. As the prophecy tells us, this will bring major changes in a way man has not seen in recorded history.  
Cataclysmic event-the judgment of God.
5. Man, as in throughout time, is under the Marcy of Almighty God.

---//---

**“MAJOR FARSIDE CME AND RADIATION STORM (UPDATED):** Something just exploded on the farside of the sun. NASA's STEREO-A spacecraft recorded a magnificent full-halo CME emerging during the late hours of Sept. 5th:

A [NASA model of the CME](#) shows it heading away from Earth and directly toward Venus. This will be the second time in a week that Venus has been hammered by a significant solar storm. An earlier CME struck on Sept. 1st, probably launched by the same farside sunspot.

***"This is no run of the mill event,"*** says George Ho of the Johns Hopkins Applied Physics Lab. ***"Many science papers will be studying this for years to come."***

Ho is the principal investigator for [an energetic particle detector](#) onboard Europe's Solar Orbiter spacecraft--and he is getting a lot of data right now. Solar Orbiter just performed a close flyby of Venus (only 6420 km away) to adjust its orbit around the sun. It is in the perfect position to observe the storm."

Far side full halo CME
