

Corona -A New, Staggering Wave of Infections and Deaths.

McKana, January 5, 2023

Hard to believe all, there is a lot of news floating about the great wave of Covid-19 cases in China. Now, the “***presumed immunity***” from the jabs and boosters have waned, the Global community is exposed to the huge number of all sorts of mutant strains. The current wave of the mutant strain in China is different from what is spreading here in the US.

The observations are:-

1. Currently, countless number of mutations are prevalent around the world.
2. The “***presumed protections***” from the jabs and the boosters have waned (we are well aware of what the Vaxs do)
3. Now, all are exposed in equal footage, the unvaxed in better conditions of immunity (all the messages given to us from the Lord tells this truth)
4. People are corona fatigue, care less, compared to the early days of the pandemic.
5. The data coming from ***all governments*** are not reliable. There are no many reports and if there are, the number of cases are much less than what is on the ground.
6. ***The new Global wave is coming with new mutations, high numbers of cases and deaths.***
7. People need to be careful of the next massive wave of infection and deaths which is going to be more complicated with the impending global calamities and other pestilence.

In April 20, 2022, I posted one message in this website about the revelation given to me when the infection and death rates were lower. At that time, regardless of the warnings from the experts in the field, most thought the pandemic is almost going to disappear.

The case in China is very alarming. The daily cases and deaths are staggering. The Government of China is concealing the true data. In the news, the report shows almost half, 40 ~50% of travelers out from China are infected. The world seems to impose regulations on people coming out from China to provide a negative test before they travel.

A short statement from the prophetic word of April states:-

“I saw in a clear vision the number 5, 281. Then, I understood that this is the number of deaths in one day from Corona. I am shown only one day figure of what is to come. There has never been deaths like this big number before. This is not a global figure, this is the figure of the US. How is this possible, one might ask. That is what I saw.”

“I don’t have any explanation for this. How this is possible is not in our hands. The Lord is showing us, telling us what is coming. As I have a difficulty releasing this, it is up to every one to take this to the Lord and find out the truth. My job, as before, is to deliver the message I am given.”

Eventhough I don't share all the statements from the Doctor, the prophetic word and the figure given to us show the truthfulness of the word from the Lord. **5,281** is what is given to us and what is reported from China is **5,253** deaths in one day. See how precise the Lord is? Eventually, it is coming here. If China, with the strictest of all control on society is suffering with this high number, it is very easy to imagine what it will be in the western world.

“Nearly 250 million Covid-19 infections in China in just 20 days: Leaked doc”

“Almost 250 million people in China may have been affected by Covid-19 in just 20 days after the 'zero-covid policy' was diluted in the first week of the month, according to radio Free Asia citing leaked government documents circulating on social media.

*In the 20-minute meeting of China's National Health Commission, as per the leaked document look like, 248 million people were infected with Covid-19 from December 1 to 20, or 17.65 per cent of China's population. As per Radio Free Asia, the data on covid cases released by government officials on December 20 is different from the reality as **nearly 37 million were estimated.***

A senior Chinese journalist told Radio Free Asia on Thursday that the document was genuine, and had been leaked by someone who attended the meeting who was acting deliberately and in the public interests.

Earlier Saturday, China mainland reported 3,761 new cases of confirmed infections and no new deaths were reported.

*The report came at the time when British-based health data firm Airfinity, said that **the infections in China are likely to be more than one million a day with deaths at more than 5,000 a day.***

The Airfinity model estimates case rates could reach 3.7 million a day in a January peak and 4.2 million a day in March 2023.”

China Covid: WHO warns about under-representing Covid deaths

“The World Health Organization has warned that China is under-representing the true impact of Covid in the country - in particular deaths.

The removal of most restrictions last month has led to a surge in cases.

*But China has stopped publishing daily cases data, and has announced only 22 Covid deaths since December, using its **own strict criteria.***

"We believe that definition [of a Covid death] is too narrow," WHO emergencies director Dr Michael Ryan said.

The UK science data company Airfinity estimates more than two million Covid cases a day in China, and 14,700 deaths.

Since China abandoned key parts of its "zero-Covid" strategy almost a month ago, there have been reports of hospitals and crematoriums being overwhelmed.”
