

## *Heaven-The City of the Street of Gold.*

McKana, January 11, 2024.

### *John 14:2-3(KJV)*

*2. In my Father's house are many mansions: if it were not so, I would have told you. I go to prepare a place for you.*

*3 And if I go and prepare a place for you, I will come again, and receive you unto myself; that where I am, there ye may be also.*

---//---

Seeing the life I am living here on earth, the Lord gave me a limited glimpse of heaven specifically the heavenly Mansions prepared for us according to the plan of the Lord. What I have recorded in time is little longer with some contents of personal matter which I found not necessary to include in this posting.

To begin with, I have a song which I always sing saying:-

***“Take me(4X) to the city of the street of Gold  
Where I can praise(4X) my God and My Lord!”***

The contents in this vision are:-

1. The heavenly Mansions and the close inside look.
2. The common area for many.
3. The Street of God and
4. Family members already there which I left without detail.

In the messages posted here in this website, we made a description of the bright and beautiful heavenly Mansions and the very beautiful Palace of the King.

Here is the vision given about the close inside and outside looks of the beautiful heavenly Mansions. Take this to the Lord for confirmations.

### *The heavenly places and the Golden street.*

(Vision of December 25, 2023. 5:00PM)

I woke up early, didn't have good sleep and wanted to rest while on the chair by a golden yellow round table where I have my PC. I rested for a while and had a long wonderful vision. Very unusual.

I am in a place I have never been before. I am in a room which looks like the setting of my room. I felt I have been there for a long time. I am familiar with the room. It is beautiful. I see the floor, nice very comfortable fluffy red carpet, I loved it. I see the bed and I see the table to the left. It is a bigger wider round table. The round table looks exactly the same as the small, yellow round table I have my PC on, here on earth but in the living room. The table in this very beautiful room is big and to the left of the same room with the bed.

I see a person I know, opened the door, came in and gave me a good hug. I am looking at the window, big window with open glasses. Three four young children dressed with beautiful dresses are looking at us through the open window. They look like passing by the window but secret treasures kept for the forever. The class open window is dressed with very beautiful colorful thin curtains which can be pooled up and down as needed. I looked to the left, there are clothes in an open closet and another beautiful curtain to the left over the small window. The window is an open glass. I can see through, the outside.

There are people knocking on the door, I opened it slightly and I see two people, a man and a woman(family) standing almost to come in. I came outside and started talking to the co-manager in the wide open space. There are few people in the beautiful vest place which looks as a reception area. They are round two three sets of tables with comfortable seats. They are assembled there for a meeting, a get together? All of them came head together around the table as if they are discussing something. I didn't

see the face of any one of them. I later understood that they are family members which have gone up yonder much earlier. I talked to the manager telling him why the people are having a meeting in this place. He said this is a common place for all. One person from the group was facing me and pointing at me to tell the people something I didn't hear.

I wanted to go back to the room. Instead, I took the most beautiful stairs down. I slide down, turned to the right and went down and started looking around from the outside. I went into the inside of a separate very complex beautiful place. There are some people around I don't know. The look new to the place having a visit like gusts.

I couldn't go back to the beautiful room. I took out a piece of paper which I remember writing the number of the room. It is 14---- and the section is C, QC and the units are 14----to continue to another number. I went forward and looked at some units. I see the outside to the right which had a parking space, very familiar. The wide space to the right is for future Mansions to be built. I entered the complex, it is not the one I first saw.

Between the beautiful Mansions, I walked up the "Ramp", not stairs, a Golden ramp and looked around the complex units. I run like a child upwards on the Golden ramp which had lines going left to right, very thin lines throughout the ramp. The ramp is between units of beautiful the golden yellow residential places. I saw a "man," good looking, tall young gentleman watching over me, an Angel? He is on the *Golden Street* walking to the right of me.

All, the inside of the Mansions and the common meeting place has bright light and the outside of the places is yellow, golden yellow. All the inside and the outside is beautiful, clean, comfortably peaceful, no dirt, no shadow, nothing unclean, all beautiful. The spacious wider inner hall which looks like a reception/meeting place and wonderful out side is very beautiful. It is none like anything on earth. I didn't go back to the room-end of the vision..

These are glimpse of heavenly mansions, the many units, the Golden street and family members reserved as secrete for the everlasting.

We see in part and we tell in part.

*As promised, the Lord has prepared Heavenly Mansions for us.*
