

My Background Journey in the Lord:

I've been appointed by the Lord as a watchman on the wall. I didn't know this during Covid, but I realized 1.5 years or so into the Covid shutdowns that the Lord was using me as a watchman to warn the church and to stand up for righteousness.

That being said, a little about me, so you can understand where I'm coming from.

I took the harms of the C-shots, as I refer to them so as not to be censored, and brought them before the elders of our church, as produced and warned by Dr. Sherry Tenpenny (the 40 MOI -- Mechanisms of Injury from the C Shots)...they blew it off and ignored my warnings and pleadings to warn the local church body as well as to take heed themselves. I took my same concerns to a local pastor group and was ignored, except by 1 of them (a local Calvary Chapel)...then I realized through seeking the Lord, that the shots were pure evil, from the pit of hell. I mentioned that to our church Elders and they blew it off again, and they said it's not their job to warn individuals about the harms of something. That it's each individuals themselves choice to govern their own bodies.

I'm attaching my initial list of what is in the C Shots for reference, which I still send out from time to time, mostly to deaf ears. **(Attachment 1)**

My journey in the Lord started in my childhood, and has gone through growth and trials as any believer in Jesus Christ does. But, the Lord has been refining me during the last 4 plus years in a whole deeper level. In that journey. **First**, by seeking the Lord to show me more about what is good and evil during the Covid shutdowns. **Second**, by re-being filled with the Holy Spirit and receiving a prayer language. That was a game changer that has first, left me repenting for the Lord for giving it up in my early 20s, and second greatly enhanced my discernment and understanding of Scriptures.

Third -- Then an online teacher challenged me and his entire worldwide audience, so spend at least 30 minutes a day alone with the Lord, with no distractions....Second game changer that has absolutely changed my life in such a positive way...I had to repent to the Lord of not getting completely alone with Him each day (not on my bike or in the car while on the road only)....and I've filled journals of the truths from God's Word, over the last 1.5 years or so..

Fourth -- Game changer -- I was seeking the Lord on how to hear Him better, like Moses, Joshue, Enoch, the prophets, etc. did ...as wells as the Apostles and more. that led me to Mark Virkler and his teaching on the 4 steps to hearing God based on Habakkuk 2:1-3...That was March 1st of this year, 2024. Wow! Now it's progressed to be being a dialogue of sorts, depending on the day.

Full Stop --May 5th -- the messages from the Lord took an abrupt turn to a more serious degree... Now, as I listen and write what the Lord is saying -- He's telling me I need to call the Church to repentance for taking the C Shots...in the last month, I've received confirmation after confirmation thru other prophetic sources that the evil in the shots is truly there, and the only way to deal with it spiritually is to repent...and leave it all in the Lord's hands..

I would welcome any questions, comments, concerns, etc.
