

## ***The attack and the Following events.***

McKana, June 16, 2025

On June 2nd, 2023. Six months before Hamas struck the villages near the vicinity of Gaze, the lord gave me a clear vision of three distinctive events.

1. The attack of October 7, 2023
2. The war following the attack and the devastation of Gaza.
3. The big event following the first two events.

True to the word of the Lord, the first two events have come to pass. The attack came on October 7, 2023, Gaza is in ruins and the last event is in process.

In all the vision, I was not sure about the location of the event. Now, it is clear.

The vision June 2nd, 2023, as recorded on time.

**First.** *I see a war, few armed men invading and attacking people in a small section of a village. This is an active war.* (This was the attack by Hamas on the neighboring villages of Israel on October 7, 2023)

**Second.** A little further from the war zone, I see ruins of a city. It started from a periphery of the city near the village and the ruins continued further to the east. I don't know what the cause of the devastation is. The walls of houses, small and big buildings are destroyed, have fallen with sections of the walls left standing. I see the ruined walls of the building, brown bricks. It looks like the devastating is from war and heavy artillery. (This was the ruins of the city of Gaza)

**Third,** *From the continuation of the devastated part of the city, I see, at a distance, houses, homes stretching in very wide area, a typical view of a big city. I don't see high raise buildings but house of a big city. In the distance, in the middle of the wide stretch of the city, I see a big explosion with yellow flames getting bigger and wider. It is a nuclear explosion, medium size, not a big mushroom cloud, like what I saw in New York few years earlier. I know it is a nuclear explosion in the middle of a big city in the east coast. At the moment, I didn't get any revelation as to what the city is. Now we know the city way far of and beyond east of Gaza is Iran. That was a strike on Iran.*
