

War is Here!!!

McKana, June 3, 2025

We all remember the prophetic word given for us from the Lord about Iran and its nuclear program, what they have been developing and what they have achieved.

Months before Iran developed hypersonic missile, the Lord warned us saying ***“It will reach here in 7 minutes.”*** Indeed Iran developed the high speed missile and wrote in their media outlet in Arabic, Hebrew and Persian language that the high speed missile can reach Tel Aviv in 400 seconds which is 6.66--minutes. See how perfect the Lord is. It happened as the Lord warned us.

Iran has achieved enriching Uranium up to 60% which is very close to nuclear grade. Still, to this day, the centrifuges are spinning. How long has it been since the world knew through the inspectors that Iran has enriched uranium to 60%.

*“The enrichment level of Iran’s existing stockpile also contributes to Iran’s ability to quickly produce fuel for a small nuclear arsenal. **Since April 2021**, Iran has stockpiled uranium **enriched to 60%** of the fissionable U-235 isotope. **Enrichment to that level already accomplishes over 90% of the work needed to bring natural uranium to weapon-grade**”*

<https://www.iranwatch.org/our-publications/articles-reports/irans-nuclear-timetable-weapon-potential>

The inspectors and the media has been telling the word that Iran has enriched uranium to **60% for four years**. Meaning, Iran has already accomplished 90% of the work to nuclear weapon grade. Even if we go with their time line, four years is more than enough time to reach the 90% required for nuclear grade.

The true story is not what the Media is telling us. The truth is in the hand of the Lord. We are told they have reached the goal of amassing up to ten and they have tipped their hyper-sonic missiles with it and they are trying to bring their arsenal close to Israel for the final assault. One of the proxies is the Houthis who are still firing high speed missile to Israel, In the prophetic word:-

*“Then the Holy Spirit said to me, “Iran’s fanatical regime has plans now in place for a sudden all-out attack on Israel. They plan to use the element of surprise to launch a simultaneous missile attack from all sides against Israel. They believe it will overwhelm the IDF missile defenses by the sheer number of missiles from all sides. **They have nuclear capability now**, though it is limited, and has not been tested. Their military strategy is to knock out the missile defenses first, and then try to sneak in the atomic warheads in the deluge. **They have now ten nuclear devices which are hidden among their arsenal**, including one submarine. **Tell my prayer warriors to take authority and intercede NOW that this evil plot will be stopped!**” Then, the dream ended.” Nov 29, 2019*

The negotiation with Iran to curb its enrichment has reached a deadlock and no agreement or deal is in sight. Iran doesn't want to give up enrichment, the west is hoping for a deal and time is flying to bring what is dreaded for Long.

See the last word from the Lord.

June 3, 2025. 4:15PM

The Lord say:-

“Israel is ready to attack”

This shouldn't be new for it is also in the media that Israel is preparing for the attack and Iran is preparing to defend.

We knew these days are coming, finally it is here. Whether in days or weeks which is not going to be that long, Israel will certainly take action. What follows is its ramification and involvement of the West and beyond, which is the feared and dreaded Nuclear War.

Remember what is given in this website spoken by many mouths and our warnings about the fast approaching of “Jacobs Trouble”

We have delivered what is given for us from the Lord, time is moving fast and we are here at the edge. See bellow the very important post of November 15, 2023 a summered messages from many messengers..

The Soon Coming War. November 15, 2023 10:24 AM. McKana
