

The Incoming Meteor is directed to Earth.

McKana, August 10, 2025

2 Corinthians 5:6-8(KJV)

For we walk by faith, not by sight.

=====

This message is greatly alarming. We are not here to seed fear rather to deliver what we are given as a warning to all. It is a responsibility, at the same time we are aware of the consequences of what follows from this. Sooner than later, this dreaded, much prophesied about Comet/meteor is coming. At the end, we trust the Lord and we walk by faith not by sight.

Take this to the Lord and inquire in prayer. Seeing the gravity of the danger, it will be good if more people give testimonies of what the Lord gives them regarding this comet/meteor.

In the last message posted in this website, we gave a word about the comet cruising through the solar system at a very high speed. Exposing the deception in society about the coming 7 mile long comet/meteor, the Lord seeing our perplexity gave us this word.

“My Father and I will direct this comet to Earth”

Is there anything impossible for the Lord? No, there is nothing impossible for the Lord. Almighty God, the creator of everything created has a full control of what He created.

After receiving the word, I kept asking the Lord to give us more confirmation of the word He gave us. I was not expecting any thing specific word, vision or dream but I wanted to hear from the Lord in any way the Lord chooses.

For long, the Lord talks to me in visions, that I heard from the Lord saying “*I speak to you through visions*” Yes, I am given a vision to confirm the word the Lord gave us. Here is the vision.

Vision of August 5th, 2025

In a sweet time of nap around 11 AM, I saw a swift vision. Because I was not sure about the clarity of the vision, I didn't record it but kept thinking about it. Five days later, I see it more better thinking about it and relate it to the word and visions I am given recently and in the last few years.

Remember the message posted here, a summary of the visions of the destroyer(see at the end) The vision which got clearer by the day is:-

I am way down looking up behind all the three from left to right, the hand, the Earth in the middle and the flaming Meteor coming down to near earth.

When the meteor is moving from afar towards and further away to earth, ***the hand moved fast as if to grab and direct it.*** I see the right hand of the Lord and felt this is his hand, moved fast stretching towards the flaming meteor. The right hand of the Lord moved fast from left to right towards the flaming meteor. ***I saw a meteor flaming.*** (See the illustration at the end)

What does it mean?

We know a meteor is sited by NASA. When they speculate about the trajectory saying it will not reach the Earth, the Lord said ***“My Father and I will direct this comet to Earth”***

My understanding is, the incoming meteor, as it comes nearer, is being directed toward the earth by the very hand of the Lord.

The Hand

The Earth

The Flaming meteor
